ONLY ONE

90° Anti-Asphyxia Valve Elbow

90° Anti-Asphyxia Valve Elbow:

The **NEW** 90° Anti-Asphyxia Valve Elbow easily and affordably converts Mercury EMS Flow-Safe Deluxe CPAP Masks to Acute Care CPAP/BiLevel Masks (non-vented).

Now save approximately \$20.00 on CPAP/BiLevel Masks in the Emergency Department. Mercury Flow-Safe Deluxe masks that arrive from EMS agencies in the ED will now convert to 90° Anti-Asphyxia CPAP/BiLevel masks (non-vented) with the new CPAP elbow.

Intended Use:

The Anti-Asphyxia Valve Elbow is an accessory to the Flow-Safe (CPAP) family of products for use with CPAP and BiLevel systems.

ORDERING INFORMATION
