

# Blood Pressure Connector

## The Poppa™ Universal Connection System

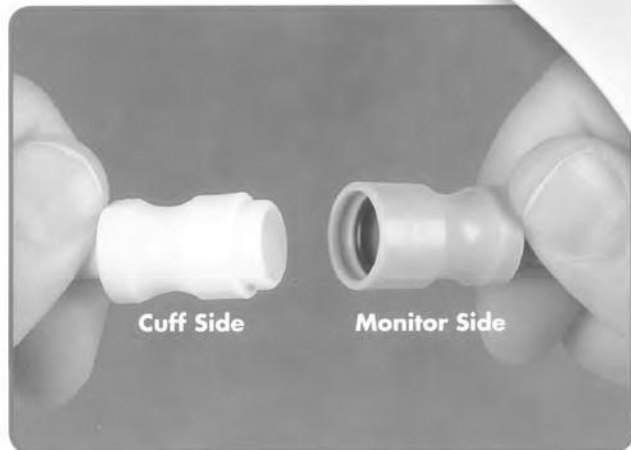

### The Poppa™ NIBP Cuff Connection System

A true universal connection system for NIBP Cuffs that allows standardization of connections on NIBP monitors and blood pressure cuffs.

#### Features

- Unique design makes connecting and disconnecting easy, yet still provides a leak-free seal.
- Safety — The Poppa™ has purposely been designed to be completely incompatible with luer connections to avoid any possible misconnection with intravenous lines and catheters.
- No more splitters, Y-pieces or other adapting type systems.
- Follows the Joint Commission recommendations to avoid purchasing non-intravenous devices that can physically mate with a female luer IV line adapter.\*
- Improve inventory management by stocking one style cuff for each size range that can connect to any NIBP monitor.
- In-line connection keeps The Poppa™ safely away from patient tampering and cross-contamination.
- Simple, easy to clean and disinfect design with NO moving parts.

\* Tubing misconnections — a persistent and potentially deadly occurrence. (Joint Commission Sentinel Event Alert, Issue 36, April 3rd, 2006.) [www.jointcommission.org](http://www.jointcommission.org)

Getting started with The Poppa™ is as easy as 1, 2, 3

1. Outfit all monitors in the facility with The Poppa™.
2. Purchase cuffs with The Poppa™ connector installed.
3. Easily connect to any monitor.

#### Poppa Monitor Connectors

Connector	Illustration	Pack Size	Product Number
Poppa 1-Tube Monitor Connector (green)		10/pk	#ED-F001-10
		10/pk	#ED-F001-100
Poppa 2-Tube Monitor Connector (green)		10/pk	#ED-F002-10
		10/pk	#ED-F002-100

#### Poppa Connectors Pre-installed on NIBP Cuffs

All cuffs with Poppa connectors are configured as 1 Tube cuffs and come with a white Poppa connector pre-installed.

JOINT COMMISSION SENTINEL EVENT ALERT  
ISSUE 36  
April 3, 2006

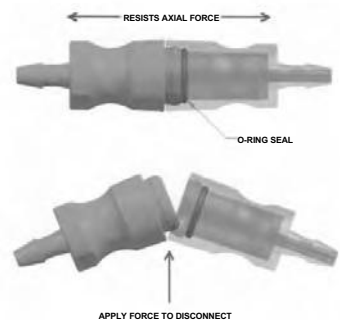

**"Misconnection errors occur with significant frequency and, in a number of instances, lead to deadly consequences."**  
To read more of what the Joint Commission has to say, see over....

### THE POPPA SYSTEM, A TRUE UNIVERSAL CONNECTION SYSTEM FOR NIBP CUFFS

**Safety** - POPPA doesn't connect to ANY OTHER DEVICE just NIBP  
**Safety** - Finally correct cuff sizing - with POPPA any cuff will fit any monitor. Your institution no longer has to run the risk of incorrect NIBP measurements due to mismatched cuffs, connectors and monitors, if you the correct size cuff, it will fit your monitor.  
**Safety** - no more struggling with incompatible single and double tube cuffs and monitor hoses. The POPPA system uses a single tube cuff system as standard with no loss of accuracy or speed of measurement. \*see clinical references overleaf  
**Cost Savings** - Inventory management, Single tube Zefon cuffs fit all your monitors  
**Cost Savings** - Say goodbye to ordering a multitude of different cuffs and connectors  
**Cost Savings** - Biomedical Professionals now have a connector they can trust  
**Patient Care** - POPPA allows true NIBP mobility throughout the hospital  
 Whether it be **Safety**, **Cost Savings** or **Improved Patient Care**, the POPPA solution offers it all

When snapped together, the Safety Side Snap connectors resist axial force.

Side pressure is applied to disconnect, and a loud popping noise occurs to signal the user that the parts have been disconnected. An O-ring provides a seal of up to 60 lbf/sq in.

## DuraCheck™

### Reusable Bladderless Blood Pressure Cuffs

For over ten years Zefon International has been designing and manufacturing superior blood pressure cuffs for leading blood pressure measurement instrument manufacturers. With a complete range of sizes, materials and connectors, Zefon brand cuffs represent the best value to bring consistent performance, patient comfort and economy to your medical setting.

#### Features

- Reusable; Durable construction for long life and multiple patient use.
- Bladderless design is accurate and easy to clean.
- Made from durable nylon material that is comfortable and strong.
- Meets AAMI and AHA Cuff Sizing Recommendations.
- Color coding makes it easy to identify cuff size.
- Latex Free.
- Complete selection of connectors and adapters allow standardization of cuffs across the whole hospital.
- Easy connection to electronic NIBP monitors including those from:

BCI, CAS, Colin, Criticare, Critikon, Datascope, Datex-Ohmeda, Dinamap, GE Medical, Invivo Research, MDE, Nihon Koden, Philips/HP, Siemens, Spacelabs, Welch Allyn and others.

## ComfortCheck™

### Disposable Blood Pressure Cuffs

For over ten years Zefon International has been designing and manufacturing superior blood pressure cuffs for leading blood pressure measurement instrument manufacturers. With a complete range of sizes, materials and connectors, Zefon brand cuffs represent the best value to bring consistent performance, patient comfort and economy to your medical setting.

#### Features

- Disposable; Eliminates costly disinfection procedures and contamination concerns.
- Cost Effective; Economical enough for single patient use.
- Increase infection control with single patient use cuffs.
- Soft white fabric material; comfortable for patients.
- Meets AAMI and AHA Cuff Sizing Recommendations.
- Color coded printing on each cuff makes it easy to identify cuff size.
- Latex Free.
- Designed as a direct replacement for OEM cuffs provided by monitor manufacturers.
- Full range of connectors and adapters allow standardization of cuffs across the whole hospital.
- Easy connection to electronic NIBP monitors including those from:

BCI, CAS, Colin, Criticare, Critikon, Datascope, Datex-Ohmeda, Dinamap, GE Medical, Invivo Research, MDE, Nihon Kodan, Philips/HP, Siemens, Spacelabs, Welch Allyn and others.

# Blood Pressure Cuffs/Accessories

## CUFF-GUARD

We manufacture disposable, protective covers for blood pressure cuffs. We make 6 standard sizes and will custom make any size needed. The covers we make would prevent cross contamination due to blood, chemical or biological agents. One single blood pressure cuff can cross contaminated multiple patients. When you take off your gloves the cuff can now contaminate you. Hepatitis B can remain virulent for up to 2 weeks in dried blood. SARS has shown that many diseases can be spread by contact. The low cost and ease of use of the Cuff-Guard makes it a necessity when treating multiple patients.

### What is Cuff-Guard®?

Cuff-Guard® is a protective cover made specifically as an effective, low cost solution to blood pressure cuff contamination. Each Cuff-Guard® is made from a soft, white spun plastic with an inner impervious plastic coating. This material made by Tyvek® provides a safe bacterial barrier and is 100% latex free.

### Should I use Cuff-Guard®?

Cuff-Guard® was designed to be easily used. It attaches to any cuff in less than 30 seconds and does not require any disassembly of your apparatus. The white surface will show contamination but can easily be wiped clean. Cuff-Guard® is both strong and durable. The cost of this effective product is about a ninth of what a normal disposable vinyl cuff costs. With the use of Cuff-Guard® one hospital reported a 50% reduction in nosocomial infections. with the use of Cuff-Guard®.

### How to use Cuff-Guard®?

**Step 1:** Place cover with velcro and label side up on a flat surface. Place blood pressure cuff inside the Cuff-Guard® cover (like placing a letter into an envelope). The BP cuff tubing needs to exit on the RIGHT side.

**Step 2:** Remove the liner on the bottom edge of the cover to expose the two sided tape. Seal the cover over the cuff by pressing the top and bottom edges together. The tape will seal around the existing cuff tubing.

**Step 3:** Place the artery here location in the appropriate position. Wrap the protected BP cuff around the arm and secure with the velcro tab.

## ARM-GUARD

Wearing protective gloves is a necessity. If you are wearing a short sleeved shirt, there is exposed skin of the arms that are not protected. We make a clear - see through sleeve to protect this exposed area from any blood, chemical or biological agent. The sleeve has no gap at the wrist and is easy to use. Arm-Guard is very low priced and used routinely by many large EMS units.

### What is Arm-Guard®?

Arm-Guard is made from a clear soft plastic. This latex free sleeve comfortably slides over the forearm. A glove is then pulled over the hand to provide tight, leak-proof barrier against liquids such as blood and water. The clear plastic allows the user to see their watch. At the top of the sleeve there is an elastic band that keeps Arm-Guard in place. This product is a practical example of low cost insurance against infection.

## TOURNIQUET COVER

### Steps to Using the Tourniquet Cover:

1. Wrap area of limb where you will place the tourniquet with webril or another soft material to prevent wrinkles in the skin.
2. Slide long sleeve over webril and center at place where tourniquet is to be applied.
3. Apply tourniquet in usual fashion.
4. Fold one end of sleeve back over the tourniquet, then fold the other end in the opposite direction.
5. Tubing will protrude out between the folds.

## Signature™ Series Aneroid Sphygmomanometer

The Signature Series offers superior performance and unsurpassed quality. The MABIS® deluxe air release valve delivers a precise deflation rate. Heavy-duty vulcanized bladder and thick-walled inflation bulb combined with our deluxe calibrated nylon cuff, assures many years of service. Range markings on the cuff assist the practitioner in proper cuff placement and size selection.

- Calibrated, blue nylon cuff
- Lifetime calibration warranty on gauge
- Three-year unconditional component part warranty
- Deluxe air release valve and inflation bulb
- Deluxe zippered carrying case

## CALIBER™ Series Adjustable Aneroid Sphygmomanometer

The Caliber™ Series Adjustable Aneroid Sphygmomanometer has all the same great features of the Caliber Series Aneroid Sphygmomanometer, plus it is specially so the user can easily set the gauge to zero if needed. Simply insert a mini-screwdriver into the stem of the gauge and turn the screwdriver until the needle returns to zero.

- Adjustable gauge can be set to zero with included screwdriver
- Calibrated, blue nylon cuff
- Twenty-year calibration warranty
- Deluxe air release valve
- Zippered carrying case
- Contains latex

Gauge out of adjustment.

Adjust gauge by turning screwdriver in the appropriate direction.

Gauge adjusted.

**NOTE:** Although the gauge can be set to zero, it is highly recommended that all gauges be periodically checked and calibrated against a certified mercurial column.

## PRECISION Series Aneroid Sphygmomanometer

The Precision™ Series is ideal for the cost-conscious healthcare provider who is looking for quality and affordability. Features a durable cuff with hook and loop closure, 300 mm Hg no-stop pin manometer and comes complete with nylon cuff, standard air release valve and zippered vinyl case. The Precision Series is available in three styles: (1) Standard with calibrated blue nylon cuff, (2) standard with gray cotton cuff and (3) latex-free with calibrated blue nylon cuff. Latex-free models include a five-year inflation system warranty.

- Economically priced
- Comfortable fitting cuff in nylon or cotton
- Ten-year calibration warranty on gauge
- Standard air release valve
- Zippered carrying case

# Blood Pressure Cuffs/Accessories

All of the components in MABIS® MatchMates® kits are color-coordinated for style and convenience. Every MatchMates kit includes a matching nylon carrying case or versatile fanny pack. Both are roomy enough to hold everything on-the-go professionals need. A great idea for nurses, students, and EMTs.

MatchMates kits are also available in latex-free featuring our five-year neoprene inflation system warranty. Neoprene inflation parts are made in a distinctive terra cotta color for easy identification.

## MatchMates kits include:

### Easy-to-read gauge

- Quality and precision
- Lifetime calibration warranty

### Matching adult size cuff

- Calibrated for proper use
- Comfortable, durable nylon

### Choose from:

#### Matching nylon carrying case

- Carrying handle
- Convenient key ring
- Outside pocket with hook and loop closure
- Measures a generous 9" w x 5" h x 2" d

### Or:

#### Matching nylon fanny pack

- Adjustable belt
- Outside zipper pocket with mesh interior pocket
- Roomy pocket inside main storage compartment
- Measures a generous 9" w x 6" h x 3" d

## MatchMates® Fanny Pack Combination Kit

The stethoscope includes five interchangeable chestpieces — three bells (adult, medium and infant), and two diaphragms (small and large) for custom user design; and three different types of eartips for maximum comfort. The matching fanny pack features an adjustable belt, an outside zipper pocket with mesh interior pocket and a roomy pocket inside the main storage compartment.

The Fanny Pack Combination Kit is available in five designer colors and is ideal for nurses, EMTs and students. The aneroid sphygmomanometer is backed by a lifetime calibration warranty.

# Blood Pressure Cuffs/Accessories

## MABIS® Single-Patient Use Blood Pressure Cuffs

MABIS® Single-Patient-Use Blood Pressure Cuffs were designed to reduce the spread of infection through cross-contamination. All cuffs are manufactured from a soft, yet durable vinyl material which can be quickly and easily wiped clean. The patient side has an extra soft lining for improved patient comfort. All cuffs are sized to meet the American Heart Association recommendations and are indexed for an accurate and comfortable fit. The quality hook and loop closures will hold secure use after use. Standard luer and universal connectors allow MABIS Single-Patient-Use Blood Pressure Cuffs to be adapted to a wide range of manual and automatic blood pressure apparatuses. All cuffs have dual-seam construction and are inspected and tested to be leak-free for consistent and reliable performance. MABIS Single-Patient-Use Blood Pressure Cuffs are available in bright white in six adult/pediatric sizes and five neonatal sizes in either double or single-tube configuration. Yellow colored cuffs are available with two-tubes in the popular adult, small adult and large adult sizes for infection control and isolation applications.

## One Standard. So Many Choices.

- **Accurate:** The Calibrated® V-Lok® System clearly indicates whether or not the correct size cuff is being used.
- **Durable:** Baum cuffs are made of tightly woven, heat set, Dracon™ polyester fabric that is double stitched at critical points for long wear.
- **Comfortable:** Cuffs conform to the shape of the limb and have no hard, stiff edges. Each cuff is treated with an effective anti-microbial agent.
- **Latex-Free:** Provides a high quality alternative for those who are hypersensitive to natural rubber latex.
- **Guaranteed:** Latex and Latex-Free components are guaranteed for 5 years.

## New - Disposable Calibrated® V-Lok® Inflation Systems

The Disposable Calibrated® V-Lok® Inflation System includes our new Disposable Bulb and Valve and a complete cuff for use with manual blood pressure instruments. Each inflation system is latex-free and fully interchangeable with our complete line of reusable cuffs. Disposable Cuffs (without bulb & valve) are available with one or two tubes and a variety of connectors for use with electronic non-invasive blood pressure monitors. See the Disposable Cuff data sheet for details.

**Note:** Baumanometer, Standby, Roll-By, V-Lok Extendex, Calibrated, Hi/Lo and Air-Flo are registered trademarks of W.A. Baum Co., Inc.

## World Standard for Blood Pressure

### The Disposable Calibrated® V-Lok Cuff

Our **Disposable Calibrated® V-Lok® Cuffs** are **latex-free** and are fully interchangeable with our complete line of reusable cuffs. They are intended for **single patient use** to help prevent cross contamination. All sizes are available with one or two tubes and a variety of connectors for use with manual sphygmomanometers or electronic non-invasive blood pressure monitors.

As with all Baumanometer® Calibrated® V-Lok® Cuffs our **Disposable Calibrated® V-Lok® Cuffs** feature:

- The Calibrated® V-Lok® system which immediately and clearly indicates whether or not the correct size is being used.
- Genuine Velcro® hook and loop fasteners which are precisely positioned and evenly matched in holding strength to provide the optimal number of open-close cycles.
- Cuffs that clearly indicate the center of the bladder on the inner and outer surfaces for ease of application on either right or left limb.
- The high quality design, materials and workmanship of products made in the USA.

**The Disposable Calibrated® V-Lok® Cuff** - a World Standard... in every detail.

Available through better-known medical equipment dealers worldwide.

# Blood Pressure Cuffs/Accessories

Welch Allyn introduces a new aneroid to complete its line of sphygmomanometers featuring DuraShock technology, the company's patented gear-free, shock-resistant innovation in blood pressure product design. The new blood pressure gauges with DuraShock technology are gear-free, enabling them to stay calibrated longer and allowing healthcare practitioners to maintain the accuracy of their blood pressure readings over time. Each of Welch Allyn's new gauges comes standard with a lifetime calibration warranty, a laser-engraved dial face and jeweled aneroid movement and in addition will have the ability to withstand a drop of up to 60 inches. The entire line of DuraShock gauges includes hand (Tycos DS58), integrated (Tycos DS48, DS45 and DS44), pocket (Tycos DS48A) and trigger-style (DS66) aneroids, giving healthcare practitioners the ability to choose the gauge that best meets their particular needs and settings.

## Platinum Series DS58 Hand Aneroids

Maintain accurate blood pressure readings with lower lifetime cost with gear-free DuraShock™ technology. Part of our Platinum Series, this premium gauge provides unsurpassed reliability in a traditional handheld design.

- Super shock-resistant — can withstand up to 60" drop (twice the AAMI "Shock Resistant" standard) and remain in calibration
- Jewel movement for long life
- Laser-engraved dial face for accuracy
- Premium inflation system for comfort
- Ergonomic inflation bulb enhances user comfort
- Lifetime calibration warranty
- Lighter weight than traditional models — won't weigh down your lab coat
- Premium aesthetics
- Latex-free

**#6783-DS58DS58** Gauge Only (NEW replacement for **#20-5098-03**)

**#6783-DS58-PD** Gauge with Pediatric Cuff Kit (Includes: Child-Print, Small Child, Infant and Newborn Cuffs) (NEW replacement for **#20-5098-18**)

**#6783-DS58-PDCB** Gauge with Pediatric Kit with Cuff and Bladder (Includes: Child-Print, Small Child, Infant Cuffs) (NEW replacement for **#20-5098-18CB**)

## Platinum Series DS48 Integrated Aneroids

Maintain accurate blood pressure readings with lower lifetime cost with gear-free DuraShock™ technology, the first major innovation in aneroid technology in 100 years. Part of our Platinum Series, this integrated-style gauge plugs directly into the integrated port of a DuraShock cuff. In use, the gauge rests on the outer part of the patient's arm.

- Super shock-resistant — can withstand up to 60" drop (twice the AAMI "Shock Resistant" standard) and remain in calibration
- Jewel movement for long life
- Laser-engraved dial face for accuracy
- Premium inflation system for comfort
- Lifetime calibration warranty
- Lighter weight than traditional models — won't weigh down your lab coat
- Premium aesthetics
- Latex-free

## Platinum Series DS48A Pocket Aneroids

Maintain accurate blood pressure readings with lower lifetime cost with gear-free DuraShock™ technology, the first major innovation in blood pressure technology in 100 years.

Part of our Platinum Series, this lightweight pocket-style gauge has a metal clip that attaches to the cleat on a two-tube cuff. In use, the gauge rests on the inner part of the patient's arm.

**#6783-DS48A** Gauge Only (NEW replacement for **#20-5090-03**)

# Blood Pressure Cuffs/Accessories

## Gold Series DS66 Trigger Aneroids

Maintain accurate blood pressure readings with lower lifetime cost with gear-free DuraShock™ technology, the first major innovation in aneroid technology in nearly 100 years. Part of our Gold Series, the DS66 Trigger features an innovative trigger-release design for easy operation.

- Shock resistant to maintain accuracy with lower lifetime cost—can withstand up to 30" drop and remain in calibration
- Soft comfort grip
- Jewel movement for long life
- Laser-engraved dial face for accuracy
- Trigger deflation valve for smooth, one-finger operation
- 15-year calibration warranty
- Lighter weight than traditional models — won't weigh down your lab coat
- Premium aesthetics
- Latex-free

# Blood Pressure Cuffs/Accessories

## Disposable/Single Patient Use Baumanometer® Calibrated® V-Lok® Cuffs

As with all Calibrated® V-Lok® Cuffs, the single Patient Cuff assures correct fit, ease of application and accurate, repeatable blood pressure readings. For use with manual sphygmomanometers or electronic, noninvasive blood pressure monitors.

Available in Adult size only with several options: (1) single or double tube and (2) with standard (make-and-break) connector, Luer Lock fitting, or threaded adapter.

**Calibrated® V-Look® Cuff and Latex Inflation Bag Assemblies \***  
with single stem bag female Luer Lock for use with Datascope® Accutorr™ Monitors.

Item Number	Description
#29-06611880SSLL	Adult Calibrated® V-Look® cuff & bag w/female Luer Lock
#29-06611881SSLL	Child Calibrated® V-Look® cuff & bag w/female Luer Lock
#29-06611882SSLL	Infant Calibrated® V-Look® cuff & bag w/female Luer Lock
#29-06611884SSLL	Thigh Calibrated® V-Look® cuff & bag w/female Luer Lock
#29-06611869SSLL	Lg. Arm Calibrated® V-Look® cuff & bag w/female Luer Lock

**Single Stem Inflation Bags - dipped latex.**

**Latex inflation bags**

Item number	Size
#29-06611840SS	Adult
#29-06611841SS	Child/Small Adult
#29-06611842SS	Infant
#29-06611843SS	Newborn
#29-06611844SS	Thigh
#29-06611845SS	Large Arm

**Calibrated® V-Lock® Cuff with single stem inflation bags.**

**Calibrated® V-Lock®  
Complete cuff  
(Includes Inflation Bag)**

Item Number	Size
#29-06611880SS	Adult
#29-06611881SS	Child/Small Adult
#29-06611882SS	Infant
#29-06611883SS	Newborn
#29-06611884SS	Thigh
#29-06611869SS	Large Arm

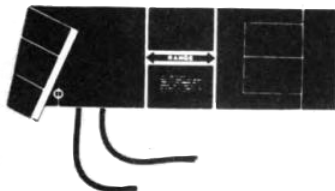

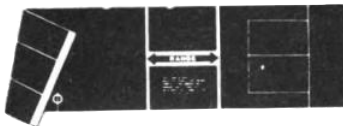

Aneroid Cuff - made of the same quality materials and workmanship as our World Standard Calibrated® V-Lock cuff.

Item Number	Description
#29-06611870AC	Adult Aneroid Cuff
#29-06611880AC	Adult Aneroid Cuff & Latex Inflation Bag
#29-06611880ACSS	Adult Aneroid Cuff & Latex Inflation Bag (Single Stem)
#29-06611820AC	Adult Aneroid Complete Inflation System

## Baumanometer Non - Latex Replacement Parts\*

### Non-Latex Inflation Bags with Female Luer Connector (Double tube)

Item Number	Description
#29-06611840NL	Non-Latex bag Adult
#29-06611841NL	Non-Latex bag Child/Small Adult
#29-06611842NL	Non-Latex bag Infant
#29-06611843NL	Non-Latex bag Newborn
#29-06611844NL	Non-Latex bag Thigh
#29-06611845NL	<b>Non-Latex bag Large Arm</b>

### Non-Latex Inflation Bags without Connector (Single Tube)

Item Number	Description
#29-06611840SSNL	Non-Latex Bag Adult
#29-06611841SSNL	Non-Latex Bag Child/Small Adult
#29-06611842SSNL	Non-Latex Bag Infant
#29-06611843SSNL	Non-Latex Bag Newborn
#29-06611844SSNL	Non-Latex Bag Thigh
#29-06611845SSNL	Non-Latex Bag Large Arm

### Non-Latex Calibrated® V-Lock® Cuff and Inflation Bag (Double Tube)

Item Number	Description
#29-06611880NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Adult
#29-06611881NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Child/Small Adult
#29-06611882NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Infant
#29-06611883NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Newborn
#29-06611884NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Thigh
#29-06611869NL	Non-Latex Calibrated® V-Lock® Cuff & Bag Large Arm

### Non-Latex Calibrated® V-Lock® Cuff and Inflation Bag (Single Tube)

Item Number	Description
#29-06611880SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Adult
#29-06611881SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Child/Small Adult
#29-06611882SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Infant
#29-06611883SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Newborn
#29-06611884SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Thigh
#29-06611869SSNL	Non-Latex Calibrated® V-Lock® Cuff & Bag Large Arm

### Non-Latex Calibrated® V-Lock® Inflation System

Item Number	Description
#29-06611820NL	Non-Latex Calibrated® V-Lock® Inflation System Adult
#29-06611821NL	Non-Latex Calibrated® V-Lock® Inflation System Child/Small Adult
#29-06611822NL	Non-Latex Calibrated® V-Lock® Inflation System Infant
#29-06611823NL	Non-Latex Calibrated® V-Lock® Inflation System Newborn
#29-06611824NL	Non-Latex Calibrated® V-Lock® Inflation System Thigh
#29-06611825NL	Non-Latex Calibrated® V-Lock® Inflation System Large Arm

### Non-Latex Tubing

Item Number	Description
#29-06612910NL	Non-Latex Extendex® Tubing 8ft. with connectors
#29-06612919NL	Non-Latex Extendex® Tubing 4ft. with connectors
#29-06612911NL	Non-Latex Straight Tubing, per ft.

### Non-Latex Bulb and Air Flo® Control Valve, Non-Latex Bulb

Item Number	Description
#29-06611890NL	Non-Latex Bulb & AirFlo® Control Valve
#29-06611891NL	Non-Latex Bulb only
#29-06611893NL	Non-Latex Large Bulb only
#29-06611894NL	Non-Latex Large Bulb & Air-Flo® Control Valve
