Fiber Optic and Anesthesia Bronchoscope Swivels

- Silicone Diaphragm allows access of fiber optic bronchoscope without significant loss of PEEP.
- Smooth surfaces are gentle to expensive bronchoscope equipment.

- Slip-proof design
- Removable cap
- Reusable

#GZ-BE10522 Swivel with 15mm I.D. patient connection X 22mm O.D. flex tube connection.

#GZ-BE1053 Anesthesia Swivel with suction port 15mm I.D./22mm O.D. patient connection x O.D. equipment connection.

#GZ-BE1057 Swivel with 15mm I.D patient connection x 15mm O.D. equipment connection.

#GZ-BE1058 Anesthesia Fiber Optic Bronchoscope Swivel with 15mm I.D./22mm O.D. patient connection x O.D. equipment connection.

Connectors/Adapters

Swivel Adapter with Two Fiber Optic Bronchoscopy Caps

This adapter swivels to allow the respiratory circuit to assume a natural angle, reducing drag and uncomfortable pressure. To allow for bronchoscopy procedures, a special cap, fitted over the suctioning port, has a flexible diaphragm that seals around the bronch/fiberscope. 25/box

Item Number
#04-625191

Lightweight Swivel Adapter

This lightweight adapter features a port for suctioning. It swivels in two planes, allowing the respiratory circuit to assume a natural angle so that it does not drag and cause uncomfortable pressure on the margin of the stoma.

15mm connections

- #04-525150** Bulk packaged, non-sterile 50/box
- #04-525151** Swivel Adapter, angled, sterile 50/box
- #04-525351** Swivel Adapter, angled with Peep Keep™ insert, sterile 50/box
- #04-525350** Swivel Adapter, angled with Peep Keep™ insert, non-sterile 50/box

FLEX CONNECTORS REUSABLE

SEMI-CLEAR (*LF)

Lightweight, Polyester elastomer

Flexible 9/16" smooth I.D. tubing with rigid 15mm male by silicone 15mm female ends. Autoclavable.

6" overall length #19-00-436-6

9" overall length #19-00-436-9

12" overall length #19-00-436-12

EPDM SYNTHETIC RUBBER (*LF)

Flexible EPDM synthetic rubber connectors with 15mm male by 15mm female ends. Lengths to 36" available upon request. Available with delrin, stainless steel, or aluminum ends.

DELIRIN

STAINLESS
STEEL

ALUMINUM

#19-00-439-13

TEFLON (*LF)

Flexible Teflon Connector with 15mm male by 15mm female ends. The ends are threaded to screw into the convolutes of the tubing making an easy to assemble connection of different lengths. It is a long-lasting, lightweight, translucent, and heat sterilizable connector. Other lengths available upon request.

5-1/2" overall length #19-00-483

CHROME-PLATED BRASS

Flexible Chrome-plated Brass Connector with 15mm male by 15mm female ends. Automatically retains bent shape.

4" overall length #19-00-484

RACINE TYPE ENDOTRACHEAL TUBE CONNECTOR

Clear Adult. Fits 7.0mm to 10.5mm

#DX-5800

Connectors

ELBOWS

Aluminum: Non-Conductive (*LF)

Lightweight; Latex-free, Anodized

Mask Elbow (Sampling)

#19-00-224

With female Luer lock sampling port. Machine end 15mm male. Patient end is nominal 22mm male and 15mm female.

Inhalant Mask Elbow

#19-00-227

For use with metered dose canister (not supplied) for in-line bronchodilation with port to accept canister and cap. Machine end is 15mm male. Patient end is nominal 22mm male and 15mm female.

Mask Elbow (CPAP)

#19-00-229

Elbow with feed tube (1/4") coming in the top, spring-loaded pop-off valve, and 1/4" connection for pressure manometer. Machine end is 15mm male. Patient end is nominal 22mm male and 15mm female.

With the fresh gas feed tube within 9/16" of the mask fitting, the kinetic energy of the incoming gases decreases dead space in the elbow.

Mask Elbow "T" Tube

#19-00-232

Machine end is 15mm male. Patient end is nominal 22mm male and 15mm female with ventilating thumb port.

Mask Elbow

#19-00-233

Machine end is 15mm male. Patient end is 22mm male and 15mm female.

Norman Type Mask Elbow

#19-00-234

Machine end is 15mm male. Patient end is 22mm male and 15mm female. Includes fresh gas feed nipple (1/4") coming down through the top to within 9/16" of the mask fitting. The kinetic energy of the incoming gases decreases dead space in the elbow.

Mask Elbow with Pop-off

#19-00-247

Machine end is 22mm male. Patient end is nominal 22mm male and 15mm female. Includes large sized adjustable pop-off valve.

Endoscopy Elbow, Pediatric

#19-00-249

Based on #19-00-233 elbow, with adapter, diaphragm (silicone) and cap to allow direct endoscopy access while ventilated.

ELBOWS

Plastic (*LF)

Lightweight; Latex-free

Mask Elbow with Pop-off

#19-00-223

Machine end is 22mm male. Patient end is nominal 22mm male and 15mm female. Includes large sized adjustable pop-off valve. (Same as #19-00-247 but in plastic).

Connectors

CONDUCTIVE NEOPRENE (*LF)

Features:

Latex-Free.
 Lightweight.
 Autoclavable. **CAUTION:** Separate components before sterilizing.
 Will not dent when dropped.
 Catheter "Y's" have 15mm stainless steel insert.

#19-00-452

#19-00-452-P

Mask Elbow

#19-00-452

Mask Elbow with 15mm male on machine end. Patient end is nominal 22mm male with taper and shoulder for secure fit in masks and 15mm female for tracheal connectors.

#19-00-452-I

Mask Elbow with Pop-off

#19-00-452-P

Same as #19-00-452 above but with a spring-loaded, adjustable pop-off valve.

Mask Elbow with Side Inlet

#19-00-452-I

Same as #19-00-452 above but with side inlet for introducing gases at the patient.

#19-00-452-IP

Mask Elbow with Side Inlet and Pop-off

#19-00-452-IP

Same as #19-00-452-I but with a spring-loaded, adjustable pop-off valve.

CHROME-PLATED BRASS (*LF)

Curved 90° with Capped Suction

#19-00-315

15mm male to 15mm female, with 3/8" suction tube and cap.

#19-00-315

Curved 90° with Suction

#19-00-316

15mm male to 15mm female, with 1/4" suction tube.

Curved 90°

#19-00-317

15mm male to 15mm female.

Curved 45°

#19-00-318

15mm male to 15mm female.

Right Angle

#19-00-319

15mm male to 15mm female.

#19-00-317

*LF = Latex Free

Connectors

Keets Type Hanks-Rackow Elbow, Side Inlet #19-00-443-A

15mm male on machine end. Patient end is 22mm male and 15mm female with a 1/4" side inlet which extends down to within 9/16" of the mask fitting, permitting an ideal "T" Tube principle for the flushing of the exhaled gas from under a mask.

#19-00-443-A

Keets Type Hanks-Rackow Elbow, Top Inlet #19-00-443-B

15mm male on machine end. Patient end is 22mm male and 15mm female with a 1/4" top inlet which extends down to within 9/16" of the mask fitting, permitting an ideal "T" Tube principle for the flushing of the exhaled gas from under a mask.

#19-00-482

#19-00-443-B

Keets Type Hanks-Rackow Elbow, Top Inlet, Side Port #19-00-482

15mm male on machine end. Patient end is 22mm male and 15mm female with a 1/4" top inlet which extends down to within 9/16" of the mask fitting, permitting an ideal "T" Tube principle for the flushing of the exhaled gas from under a mask. Also has a 1/4" side port.

#19-00-132

Hanks-Rackow Elbow #19-00-132

15mm male on machine end. Patient end is nominal 22mm male and 15mm female.

#19-00-133

Hanks-Rackow Elbow with Side Inlet #19-00-133

15mm male on machine end. Patient end is 22mm male and 15mm female with a 1/4" side inlet for introducing fresh gas at the patient.

CPAP ELBOWS

Elbows with feed tube (1/4") coming in the top, spring-loaded pop-off valve and 1/4" connection for pressure manometer.

With the fresh gas feed tube within 9/16" of the mask fitting, the kinetic energy of the incoming gases decreases dead space in the elbow.

Machine end is 15mm male. Patient end is nominal 22mm male and 15mm female.

Modified Ayres "T" Tube #19-00-456
15mm male on machine end. Patient end is nominal 22mm male with taper and shoulder for secure fit in masks and 15mm female for tracheal connectors.

#19-00-251-D

In-Line Relief Valve (True APL) #19-00-250
22mm female x 22mm male / 15mm female with #19-00-273 relief valve, adjustable from 0-55cm H₂O @ 9 lpm, chrome-plated brass.

In-Line Relief Valve (True APL) Chrome / Brass #19-00-251
Black Delrin #19-00-251-D
15mm male x 15mm female with #19-00-273 relief valve, adjustable from 0-55cm H₂O @9 lpm.

Sampling Tee, Luer #19-00-90
15mm male x 15mm female ends with a female Luer lock sampling port.

"T" TUBES

Summers Type "T" Tube #19-00-239
The Summers "T" Tube incorporates all the favorable characteristics described as fundamental principles of "T" pieces: negligible expiratory resistance, simplicity and minimum dead space. With the fresh gas inlet within 9/16" of the end fitting, the kinetic energy of the incoming gases decreases dead space in the fitting.

Patient end is 15mm female. Machine end is 15mm male. Inlet is 1/4" OD.

Washington Type "T" Tube #19-00-240
The Washington "T" Tube incorporates all the favorable characteristics of fundamental "T" piece design in a shorter length version. Additionally, with the fresh gas inlet within 9/16" of the end fitting, the kinetic energy of the incoming gases decreases dead space in the fitting.

Patient end is 15mm female. Machine end is 15mm male. Inlet is 1/4" OD.

BUSHINGS AND ADAPTERS

Male Connector #19-00-184
15mm male x 15mm male.

Male Bushing #19-00-235
15mm male x 5/8" tube.

Female Bushing #19-00-236
15mm female x 5/8" tube.

Female Connector #19-00-430
15mm female x 15mm female.

Corrugated Tubing Connector #19-00-241
22mm male x 22mm male.

BAG & TUBING ADAPTERS

Scavenging Adapter (Brass, Chrome Plated) #19-00-91
22mm female x 19mm male.

Tube Adapter (Aluminum) #19-00-95
Corrugated tube adapter aluminum bushing 7/8" O.D. x 15mm female.

Bag Bushing: Cage (Brass, Chrome Plated) #19-00-97
Reduces 7/8" bag to 15mm female, with cage on bag end.

Bag Bushing: Cage (Stainless Steel) #19-00-219-S
Adapts 5/8" rolled neck bag to 15mm female with cage on bag end.

Bag Bushing: (Brass, Chrome Plated) #19-00-98
Reduces 7/8" bag or tube to 15mm female.

Bag Bushing: (Neoprene) #19-00-455
Reduces 7/8" bag or tube to 15mm female.

Male Bushing (Stainless Steel) #19-00-235
15mm male x 5/8".

Female Bushing (Stainless Steel) #19-00-236
15mm female x 5/8".

Hose Adapter (Delrin) #19-00-414
15mm female x 1/2" diameter hose connector.

Universal Adapter #19-00-320
Large end is 22mm female. Small end is 15mm female.

Connectors

CHROME-PLATED BRASS (*LF)

Rabbit Ears #19-00-411
Modified Ayers "T" Tube. Legs are 3/8" O.D. and the patient end is 15mm female.

#19-00-437

Inhaler "Y" #19-00-413
15mm female with two 1/2" O.D. legs.

Rendell-Baker Bifurcated Mask Chimney Piece #19-00-437
With gas inlet and spring-loaded pop-off. The machine end is 15mm male and the patient end is 7/8" O.D. for masks.

#19-00-411

#19-00-460

Large Bore Gas Inlet "T" Tube #19-00-460
15mm male x 15mm female "T" Tube for sequential pediatric assembly with large bore gas inlet 3/8" O.D.

#19-00-413

T.I.B. Adapter #19-00-461
22mm male x 22mm female with 3/8" side tubing connection at 90°.

#19-00-461

#19-00-404

Catheter or Hose Adapter #19-00-404
15mm male x 15mm female with 5mm sampling hose fitting.

#19-00-407

Inlet Adapter, Vaporizer #19-00-407
Female 23mm inlet adapter with 5/16" hose nipple.

#19-00-408

Outlet Adapter, Vaporizer #19-00-408
Male 23mm outlet adapter with 5/16" hose nipple.

Mask Adapter #19-00-129
15mm male on the machine end. Patient end is nominal 22mm male and 15mm female.

#19-00-129
