

Suction Canisters

SUCTION CANISTERS

Features:

- Positive shut-off system.
- Available in DISS and stem models.
- Twist - Locking lid avoids accidental opening.
- 2400ml & 1500ml capacity canisters for range of volume needs.
- Easy-to-read calibrations.
- Tubing hooks built into lid prevent wrapping tubing around regulator - avoid kinks and occlusions.
- Caps for all ports are attached to lid for convenient sealing of canisters after use.
- Tandem hookups for hooking multiple canisters together in series.
- Filters are standard on all models.

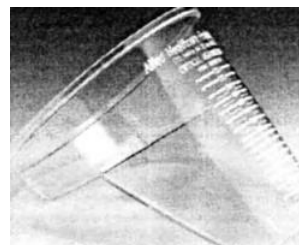

ITEM NUMBER	DESCRIPTION	CAPACITY	QUANTITY
#32-20080001	Large DISS	2400ML	36/CS
#32-20080002	Large STEM	2400ML	36/CS
#32-20080003	Small STEM	1500ML	48/CS
#32-20080004	Small DISS	1500ML	48/CS
#32-20080005	Large DISS w/tubing	2400ML	36/CS
#32-20080006	Large STEM w/tubing	2400ML	36/CS
#32-20080007	Small STEM w/tubing	1500ML	42/CS
#32-20080008	Small DISS w/tubing	1500ML	42/CS

Specimen Bag

Filters large particles from the aspirate. Fits into the accessory port for easy accessibility.

- #32-20020151 Specimen bag 4.5 in. 12/Box
- #32-20020153 Specimen bag 9.0 in. 12/Box

Critical Measurement Insert

For precise volume determination of aspirated material. Inserts into the 1500ml Handi-Vak II Collection Canister.

- #32-20020152 12/Box
