

Temperature Trend Indicators

CliniTemp™ Moving Line Temperature Indicators *Reliable. Effective. Cost Efficient.*

CliniTemp Moving Line Temperature Indicators, manufactured by Hallcrest, are fast becoming the preferred alternative to esophageal probes, with more units sold than the largest brand of esophageal probes. CliniTemp Moving Line Temperature Indicators are non invasive, easy to use, highly reliable, and provide precise readings that have been well documented over the years. CliniTemp Moving Line Indicator Strips are also priced less than esophageal probes... often as much as 75% less per patient.
