## ONLY ONE

Low FiO<sub>2</sub> Elbow

## Low FiO<sub>2</sub> Elbow:

The Flow-Safe® II has an optional Low  $FiO_2$  Elbow that can be used for specific patients that may require low  $FiO_2$  delivery. The elbow is easy to connect and reduces the delivered  $FiO_2$  to approximately 35%.

### Intended Use:

The Flow-Safe II Low FiO<sub>2</sub> elbow is intended for use with Flow-Safe II **ONLY**, without nebulizer.
